13. Executive Session – Roll Call Vote

14. Any action coming out of Executive Session

15. Adjournment
1. **Call to Order**  
The meeting was called to order at 4:30 PM by Chairman Burditt.

2. **Roll Call**  
Ansel Burditt, Blake Parsons, Albert Durst, Justin Faulk were all present. Donald Tolan was excused. Alternate Jerry Smith was also present.

3. **Approval of Minutes**  
a. Approval of March 7, 2022 minutes  
Motion to approve March 2022 minutes made by Parsons, seconded by Durst. *Motion passed.*

4. **Public Input**  
None

5. **Approval of Claims**  
a. Approval of April 2022 Claims  
Motion to approve April claims made by Parsons, seconded by Faulk. There was no discussion on the claims. *Motion passed.*

6. **Coroner**

7. **Sheriff**
   a. Domestic Hot Water Boilers for PSB Replacement Bids  
The Public Safety Building has needed to replace the hot water boilers for over ten years. But something always comes up and the boilers get pushed back. Two quotes were received – 1) purchase of Lochinvar boilers and installation through Ryle for $26,395, or 2) purchase of Raypak boilers for $13,254 from Donelson and then Ryle would need to install for $18,829. The Sheriff recommends going with the Lochinvar boilers for $26,395. Motion to approve purchase of Lochinvar boilers from Ryle for $26,395 made by Parsons, seconded by Durst. *Motion passed.*
   b. Card Reader Access Project Bids  
Addition information is coming, so this will be on next month’s agenda.
   c. Retaining Wall Replacement Bids  
The south parking lot north wall has deteriorated over the winter and needs to be replaced immediately. There is only one quote at this time, but Maintenance is waiting on two more. The Sheriff asked if a short meeting could be held before the Board meeting in hopes the other quotes would be available then. We will hold a short meeting before the Board meeting to discuss and have action on this item.
   d. 1833 Elections Project Informational  
Last year it was approved to update 1833 Main to be used as a voting center. That project is moving forward and will be started in June and ready for use in the November election.
   e. PSB Door Replacement Informational  
Due to the settling of the Public Safety Building, the door to the south has rusted and is nearly impossible to open, or if it does open, is nearly impossible to close and is creating a security issue. A new frame has been ordered and will be installed.
f. Sheriff/EMA Vehicle Replacement Update
The vehicles that were approved have been ordered. However, there is a delay. They are still not scheduled for production, but we have not been notified that we have been removed from our place in line. We are looking at possible production in June with delivery later in the year. It was asked if all cars are in use. The used cars we purchased are equipped and in use. Two cars that were in accidents are waiting on some interior parts—air bags, etc.—before they will be in use.

g. Maintenance Department Vehicle Replacement
A used maintenance department vehicle has been budgeted for. The Sheriff has found a few used ones that would possibly fit our needs. However, they don’t last long. Once a vehicle is found, we need to jump on it. The Sheriff would like a resolution not to exceed the $28,550 that was approved and paid in vacation so that once a vehicle is found, he can purchase it right away. He is looking for a crew cab pick-up. Motion to approve the purchase of a vehicle not to exceed $28,550 and be paid in vacation made by Parsons, seconded by Durst. Motion passed.

h. Spring Bay Patrol Contract
The Spring Bay Police Department was disbanded. They have reached out to the Sheriff’s Department to have them cover Spring Bay for 40 hours a month. The past 6 months the Sheriff’s Department has been covering Spring Bay with no compensation. The Chief Deputy met with the officials, showed them our standard contract and they are excited to sign. This would be a one year contract. The first year would be $19,223. The second year’s price are unknown at this time but would more than likely increase. Spring Bay wants to start this May 1st. This would be handled with on-duty people. The contract has been approved by the State’s Attorney’s Office. There are not specifics on how the 40 hours would be divided, but more than likely the majority of hours would be evening and weekends. It was asked how many towns/municipalities the Sheriff covers and it was stated that the only towns we do not cover are El Paso, Eureka, Metamora and Goodfield. It was asked how they figure the rate to charge each town. The Sheriff is not trying to make money, but to break even. They use hourly rate of pay, vehicle cost, training, insurance, liability, etc. to figure costs. It comes out to be about $40.05 per hour. It was mentioned that this seems to be on the cheap side. Hourly rate for new officer is $24.90. This coverage would only be for Spring Bay proper. Motion to accept Spring Bay Contract and move to the full Board made by Smith, seconded by Parsons. Motion passed.

No information provided

8. Animal Control

a. Discussion/Action on animals held by Heather Leman in court case
There is one dog left. This dog is blind and deaf. Discussion on what the County’s responsibilities are, our obligation, and how long to pay Ms. Leman for holding the dog. All other dogs have been placed or taken to a shelter. The dogs in this case were forfeited to the County. The County Animal Ordinance states that a dog will be held for only 10 days. The State’s Attorney stated that the dog is now county property, so he is not sure the 10 day rule applies. Heather is charging the County $10 a day to keep the dog. This dog will bite anyone other than Heather that goes near it. It was recommended that Mr. Abney pick the dog up and have it euthanized. The State’s Attorney will contact Ms. Leman and Mr. Abney will arrange for this to happen.
b. Discussion on fuel, etc. Surcharge

Animal Control has charged a $10 fuel charge to two different animal owners. When Mr. Abney was hired, he, the Treasurer, and the Assistant State’s Attorney went over the fees and fines that could be collected per our Ordinance. All money collected is turned over to the Treasurer and then she disburses it to the proper accounts and Mr. Abney’s pay. This past month there were 53 calls, 210 hours put in and over 4,000 miles driven for calls. Mr. Abney sees this as his business, since he had to get a license through the state to operate on our behalf. As his own business, he should be able to make charges as he sees fit that do not go through the County’s accounting system, such as the expense of the fuel. While he is an independent contractor, he is doing business on behalf of the County. Discussion on Mr. Abney’s contract and if it prohibits the collection of a fuel charge. State’s Attorney Minger said that there is nothing in his contract that allows this, and he does not see any statutory authority to collect a fuel charge. Mr. Abney reached out to his personal attorney to define the difference between Tim Abney as a sole contractor and Tim Abney as an employee of the County. When Mr. Abney was hired, this was a part time job and fuel prices were $2.48. Fuel prices have now more than doubled and this is no longer a part time job. He is on call 24/7 and has even received calls at 3:00 A.M. regarding animals. It was asked who determines what fees he can charge. The Ordinance addresses fees that the County can collect. There is a difference between a County charge and his business charge. The committee questioned if they have the authority to tell a business what they can charge and not charge. Mr. Abney stated that he is trying to come up with a way to keep his head about water. The State’s Attorney will review the current practices.

One committee member questioned the amount of time spent and the miles driven. Mr. Abney is not in a business of housing animals like Ms. Leman was. Question if he was operating as a business or a sub-contractor for Woodford County. All activity done by Mr. Abney is done on the County’s behalf. The County does not pay Mr. Abney mileage. Fuel charges should be based on mileage, not just a flat rate.

The Treasurer went over how fees are distributed. Mr. Abney turns in a ticket with the amount for fines, and storage fees. The boarding fees are deposited and a receipt is ran through the accounting system. When Mr. Abney turns in his pay request, he included the amount of boarding fees for that month. Ms. Andrews stated that under Ms. Leman, we did not know how many animals were coming in and out of her facility, the Board did not receive any information from her.

The fuel charge being assessed was paid by the owner of the animal, not by Woodford County. This money would not go to Woodford County, but would go to Mr. Abney. If there is a separation between the Board and his business, the County cannot tell him what he can and cannot charge. If the County is dissatisfied with what a sub-contractor is doing, then the County has the right to not use the sub-contractor. Discussion on if he is impounding an animal on behalf of the County then we are involved. Mr. Abney stated he was required to go through the state and start a business to be licensed to pick up animals. He stated that he explains to the owner which fees are being paid to the County
and which fees he is collecting on behalf of his business. Mr. Abney also stated that he can provide the bill the sale which shows the miles on the truck when he purchased it, and show the miles on the truck to date. This truck is only used for animal control. The County can only rely on the State’s Attorney recommendation. The State’s Attorney will do some research and report back to the Board in a meeting before the Board meeting next week.

Mr. Abney went over his monthly report. He printed each call he responded to and made hand written notes on each call as to how he responded to the call. He was asked to make one summary sheet instead of individual sheets.

Ms. Andrews reported that an owner with 18 dogs had not registered the dogs. She has sent them multiple letters and has had no response. She informed Mr. Abney, he visited the owner, and the registrations fee of $570 have now been paid.

9. Health Department
   a. Discussion/action on CivicPlus quote to make website ADA compliant
   The Health Department has several grants, and has to be in compliance with their requirements to continue to receive funds. One of the compliances is making sure our webpage is ADA compatible. CivicPlus, our webpage manager, has a tool that would look at our website and red flag any of our pages that has an ADA issue, which then we could fix. Ms. Aggeritt has some COVID funding that would allow for the Health Department to pay for the first year, and then is asking the County to pay for the second year. The first date to install this tool would be June or July and it would take approximately three months to have it all installed. This installation would not shut the webpage down. It would be behind the scenes and not during the day time. The COVID funds do allow us to spend month on this but do not allow for prepayment, that is why she is asking for the County to cover the second year. This second year fee would be addressed at budget time. Since this is for the whole County webpage, Ms. Aggeritt would work with the other department heads to make sure that their pages were not affected in a negative way. The County Clerk has to transition over to a .gov by June which will affect the whole campus. The domain is linked to the page, so the .gov domain will be integrated into the webpage. It was asked what kind of accessibility would this offer to make it ADA compatible. This would offer google searches, can translate pages into other languages, etc. Motion to approve Health Department funding to make webpage ADA compatible for the first year and Woodford County to pay the second year made by Parsons, seconded by Durst. Motion passed.

Covid update – cases are down, only seeing 1-2 cases per day. Those over 50 years of age can get a booster. The Health Dept. is waiting on the 0-5 age to get approval for vaccination from the CDC. The contract tracing staff has been adapted to help in other areas. Ms. Aggeritt reports that 60.1% of the County has been vaccinated. (Ms. Aggeritt sent an email stating that she report the 60.1% as a County number when in actuality that is number for one age group. The percentage of County citizens that have been vaccinated is 54.21%)

5. Unfinished Business
   a. Animal Control – Discussion/action on fuel surcharge
      A draft of a report sheet was handed out. This sheet will allow the committee to collect data on the types of calls that Mr. Abney is handling. The mileage issue was discussed. The Animal Control contract that was negotiated with Mr. Abney does not pay mileage. Discussion on whether or not to open up contract negotiations with Mr. Abney to address the shortcomings we are facing - open negotiations now, what a few months to see what data is reported, or wait till the contract is up, and do we address fuel charges. It was brought up that Section 12 of the Animal Control Ordinance states that boarding fees are charged, but the Ordinance doesn’t state what those boarding fees are. Could the boarding fees be increased to help cover the fuel costs? It was pointed out that the contract with Mr. Abney sets the boarding fees at $10 a day. Question on how fees paid to Mr. Abney were handled. The Treasurer went over how fees are distributed. Mr. Abney turns in a ticket with the amount for fines, and storage fees. The boarding fees are deposited and a receipt is run through the accounting system. When Mr. Abney turns in his pay request, he included the amount of boarding fees for that month. The two charges that were obtained for fuel, also were run through our accounting system. This is a new contract and we are becoming aware of the shortcomings that need to be addressed. Discussion on how to handle these shortcomings. It was stated that Mr. Abney bid this contract. The Assistant State’s Attorney sees issues with renegotiating a contract in a middle of the contract. This would set a precedence that the County is willing to negotiate any contract in the middle of a contract, and that any vendor who has a contract with the County can all of a sudden ask to have their contract renegotiated for a higher price. Mr. Abney’s contract is the same contract that we had with Ms. Leman. It was stated that the County had never kept track of what Ms. Leman did, and when we bid this job, we didn’t have any idea what all it entailed. Now that we are keeping track of it, we have a better understanding of what all is involved. It was pointed out that this is not accurate. The call numbers that came through dispatch were discussed with Mr. Abney before he took the job and this contract reflects his bid. Mr. Abney is a
contractual employee and the time to renegotiate his contract is when it is up. It is not the County’s fault that Mr. Abney underbid his contract. Three years ago we were paying Ms. Leman $70,000. She even got a 3% increase. Now three year later, we are still paying $70,000. Everything goes up. The Committee does not argue that Mr. Abney is having a hardship with the increase in fuel prices and the miles he is traveling. As an independent contractor, we do not specify how his payment is used. We hired Animal Control as an independent contractor who is to cover all expenses incurred in the job. At this time the consensus from the committee is to do nothing. Mr. Gibson will relate this to Mr. Abney. The $20 that was collected for fuel will be reimbursed to those two citizens as an overcharge. Mr. Burditt will make a motion at the Board meeting to amend the claim to Mr. Abney to be $20 less.

b. Sheriff — Discussion /action on retaining wall replacement
The Sheriff had been waiting on two additional bids — from Knapp and Hoffman. However, those two companies did not bid. The Sheriff only received one bid. Motion to accept the bid by New Horizon to replace the retaining wall for $34,714.50 made by Parsons, seconded by Faulk. Motion passed.

6. Other

7. Adjournment
Motion to adjourn made by Parsons, seconded by Faulk. Motion passed.

Meeting adjourned at 6:18 P.M.

Projects / Information List and Update May 2022

This project was approved by the PSC and the County Board. The project was completed on April 21st and the claim has been submitted for payment.

Project: Front Parking Lot Repair.

Public complaints regarding the condition of the front parking lot were received by Board Member Hill. With his assistance and the assistance of the Woodford County Highway Department, the repairs have been made. We are still awaiting the RLF parking lot project to begin.

Project: South Lot Retaining Wall Replacement.

This project was approved by the PSC and the County Board. The project is scheduled to start on July 18th and may take 2-3 weeks to complete.

Project: South Lobby Employee Entry Door / 911 PSAP Door Replacement.

The PSC was advised of the issues with the doors and the potential concerns. The 911 PSAP door has been repaired and reinstalled. We continue to have a few issues with adjustments on the 91 PSAP door but the Maintenance Dept. is working on a resolution.

The South Lobby Door and frame will be removed and newly installed. The door and frame are on order and should be delivered and installed later this month.

Project: Annex 3 Grounds Improvement Project.

We have funds in the budget for the improvement of the Annex 3 lot. Improvements are required to comply with Eureka City Ordinance. We have received one quote and are expecting an additional quote for this project.

Project: Jail System Automation Controls.

This project was approved by the PSC and the County Board. We have had a final conference with the approved vendor. This will be a multi-year project and the planning and design phase is now starting. We are working on some workarounds while those systems are being affected during installation. We are hopeful to have project completion by February of 2023.

Project: ARPA Funding HVAC CH/PSB.

We have had a few meetings over the past month with the engineering firm Keith Engineering. Keith has had several onsite visits last month. And the subcontractor has completed the 3D building scanning as of late last month.

Project: IT Systems / Licensing & Early Voting IT Project.

I have had several meetings and phone conference calls with Heart Tech regarding projects for FY 2022 and the IT needs for the Early Voting Center at Annex 4. We had to purchase upgraded server system licensing from CDW-G. The invoice has been submitted for payment. The early voting center work is underway with the purchase of the needed network equipment for the fiber connection and direct
access to the county IT network. Heart Tech has completed the new cable runs at Annex 4 for the early voting center.

Project: Telephone System Server Drive Upgrades.

On May 4th Heart Technologies installed new raid hard drives in the Mitel Telephone system. Several of the hard drives had failed or begun to develop issues with the raid. The telephone system was down from 5 pm until about 6:45 pm. The system being down did not affect the 911 center and all departments were notified days in advance of the scheduled outage.

Project: ARPA Camera System Project.

I have met with the County Clerk and Steven Lyddon from the US Department of Homeland Security. We discussed CCTV in the courthouse. We also discussed active shooter and safe rooms. I will be working with the department heads in the courthouse to develop a scope for vendors to provide quotes for the CCTV portion of this project. I will also be working with Sheriff’s Command and the Maintenance Department to develop and designate safe rooms in the CH.

Project: Corrections Facility CCTV Additions / Upgrade Project

The Corrections staff and the Maintenance Department are working on the addition of a few cameras in the Correctional facility to enhance safety. This project is primarily paid from jail funds. Just FYI.

Project: Maintenance Vehicle Replacement Project.

The PSC and the County Board approved a not to exceed amount for the purchase of a replacement Maintenance Department truck. I have been looking for a vehicle but as of this date haven’t found a replacement. Just FYI.

Project: Sheriff Patrol / EMA Vehicle Replacement Project

This project was approved by the PSC and the County Board for the purchase of new replacement vehicles for the Sheriff and EMA. The vehicles have been on order at Mangold Ford since late January 2022. We have confirmed that the vehicles are scheduled to build in June with possible delivery in July 2022. We are now in the process of ordering the up-fitter equipment for these vehicles. You can expect to see those claims in June and July.

Project: AED / Stop the Bleed Kits for County Buildings and Sheriff Patrol.

This project was approved by the PSC and the County Board for the purchase of AEDs and Stop the Bleed Kits. We have received the order and are getting the equipment organized and ready for distribution and or installation. We have received notice that the wall cabinets to hold the AEDs and Stop the Beed Kits are on backorder at this time. Once we receive the wall cabinets we will meet with the Maintenance Department to have the equipment installed. I will follow up with all the department heads on the locations of the AEDs once installed.
Sheriff Office (BWC) Body-Worn Cameras Project.

We have met over the past few months with the selected vendor for the purchase of the BWCs and data storage. We are now finalizing the project equipment to be purchased, software, and data storage. We hope to have the equipment on-site in August and have the BWC system up and running by the end of the FY. We are working on the purchase coming from Sheriff’s Funds and some alternative funding opportunities that are available to the Sheriff’s Office.

Annex 4 1833 Polling Place Early Voting

We are working with the County Clerk, Maintenance Department, and several vendors to start on the remodel of 1833 as soon as the early voting is completed. The hope is to have everything fully done well before the General Election in November 2022. Some of the projects have already been started or completed at this time. The ADA Door opener and access ramp/threshold have been completed. And as mentioned the IT portion is underway. Carpet, Lighting, and Paint have all been scheduled after early voting has been completed.

IT Network Protection.

One of the proposed projects for IT this FY was to implement more security into the network. We have met and discussed some recommended security measures that will be put into place including two-party authentication for user access. In addition to timeout for all county computers with inactivity require login credentials for users to regain access. I will be meeting with Heart to discuss the remaining IT projects for this FY as well as budget prep for next FY.

Sheriff’s Office / EMA Department

I will be submitting a proposal for consideration of the use of ARPA funding for the Sheriff’s Office, Correctional Facility, and EMA. We have met and discussed some areas where ARPA funding could be used to purchase equipment or construction projects that would have a significant benefit to the respective departments/divisions and the county.

StarCom21 Project Cont.

This is more of an FYI to the PSC. We have continued to work on several issues with the StarCom21 system. We have over the past three years continued working with Motorola and a variety of vendors to deal with some of the known shortcomings and some of the unforeseen issues that have come up since implementation. Overall the system is great and this was without question the correct move for Public Safety Communications in the county. We have some issues with the type of encryption that we have in our radios that will need to be modified to a more open-source P-25 encryption AES soon. We are also looking at a few areas with less than acceptable indoor portable coverage that may require a plan for a future site to properly address the coverage. We continue to add user equipment for both the WCSO and EMA as the interoperability becomes more available and needed. I am providing this information as just an FYI that at some point we will need to take a serious look into what needs to be done.
Staffing       Sheriff’s Office and Maintenance Department Staffing.

Just FYI to the PSC. We are still looking for staffing in the Sheriff’s Office and the Maintenance Department. At this time we have an open FT Correctional Officers position and several open PT Corrections and Control room Operator positions. We also have an open FT Maintenance Assistant position and an open PT Maintenance position. We have open PT positions in the Sheriff’s Patrol Division and are expecting maybe two open FT positions by the end of the year.

Project       PSB Domestic Hot water Boiler Replacement

This project was approved by the PSC and the County Board. We have discussed with Ruyle Mechanical the project and requested that the equipment be ordered. As of this date we have not been given a firm date when the equipment will arrive. Once the equipment is delivered we will meet with Ruyle to discuss installation of the equipment and the duration of the absence of hot water in the facility. I will advise if I have any additional information as to the timeline of this project but at this time we are hopeful to start the project the third week of June.

I will be happy to discuss any of these issues at the PSC or feel free to reach out to me.

Respectfully,

Matt Smith

Monday, May 2, 2022
We have a 3-year cert for Louie 6/14/19 (neutered tri-colored Beagle) $30  
We have a 3-year cert for Parker 7/25/19 (neutered black Lab) $30  
We have a 3-year cert for Petro 5/11/21 (neutered tri-colored Beagle mix) $30  
We have a 3-year cert for Murphy 11/8/21 (neutered chocolate Lab) $30  
The vaccination for Colt expired 1/17/22 and we do not have a new cert. (neutered white/tan mix) ??

Expiry

I went and visited dog owner.  
I took her to courthouse and got dogs registered.
