The preliminary seven-day statewide positivity for cases as a percent of total test from January 17–23, 2021 is 4.8%. The preliminary seven-day statewide test positivity from January 17–23, 2021 is 6.0%.

A total of 1,112,725 doses of vaccine have been delivered to providers in Illinois, including Chicago. In addition, approximately 524,050 doses total have been allocated to the federal government's Pharmacy Partnership Program for long-term care facilities. This brings the total Illinois doses to 1,636,775. IDPH is currently reporting a total of 681,473 vaccines administered, including 106,274 for long-term care facilities. Yesterday, a total of 23,653 doses were administered. The 7-day rolling average of vaccines administered daily is 27,776 doses.

If all the mitigation metrics continue to improve, regions 1 and 2 will move into [Phase 4](#) of the Restore Illinois Plan on Monday, January 25, 2021.

*All data are provisional and will change. In order to rapidly report COVID-19 information to the public, data are being reported in real-time. Information is constantly being entered into an electronic system and the number of cases and deaths can change as additional information is gathered. Information for a death previously reported has changed, therefore, today's numbers have been adjusted. For health questions about COVID-19, call the hotline at 1-800-889-3931 or email dph.sick@illinois.gov.
