Currently, IDPH is reporting a total of 1,116,372 cases, including 19,067 deaths, in 102 counties in Illinois. The age of cases ranges from younger than one to older than 100 years. Within the past 24 hours, laboratories have reported 100,119 specimens for a total 15,733,562. As of last night, 2,802 in Illinois were reported to be in the hospital with COVID-19. Of those, 567 patients were in the ICU and 292 patients with COVID-19 were on ventilators.

The preliminary seven-day statewide positivity for cases as a percent of total test from January 21–27, 2021 is 4.3%. The preliminary seven-day statewide test positivity from January 21–27, 2021 is 5.5%.

A total of 1,293,075 doses of vaccine have been delivered to providers in Illinois, including Chicago. In addition, approximately 496,100 doses total have been allocated to the federal government's Pharmacy Partnership Program for long-term care facilities. This brings the total Illinois doses to 1,789,175. IDPH is currently reporting a total of 829,488 vaccines administered, including 131,284 for long-term care facilities. Yesterday, a total of 55,865 doses were administered. The 7-day rolling average of vaccines administered daily is 36,728 doses.

\*All data are provisional and will change. In order to rapidly report COVID-19 information to the public, data are being reported in real-time. Information is constantly being entered into an electronic system and the number of cases and deaths can change as additional information is gathered. Information for deaths previously reported has changed, therefore, today's numbers have been adjusted. For health questions about COVID-19, call the hotline at 1-800-889-3931 or email [dph.sick@illinois.gov](mailto:dph.sick@illinois.gov).
